

Handle the group. Handle the money.

The group-payments layer for premium brands.

Been Handled coordinates groups and handles the money — so your team stops chasing deposits, Venmo screenshots, and half-paid invoices. One shareable link. Real-time roster. Stripe-powered payouts. Zero spreadsheets.

One link. One roster.

Send one master link. Members pay individually. Roster auto-populates in real time — no imports, no spreadsheets.

Transparent processing.

Customer pays base + processing. After Stripe, remainder splits 50/50 with you. Predictable. Auditable.

Built for premium brands.

Formalwear, travel, charter, rental — your logo, your terms, your Stripe. We're the rails, not the brand.

How it works

- 01 Partner spins up a Been.**
Coach, coordinator, or store rep names the item and price.
- 02 One link goes out.**
Text or email the master link. No app install for members.
- 03 Members pay individually.**
Each pays their share via Stripe. Roster fills as they go.
- 04 You get paid, we reconcile.**
Stripe payout to your account. We handle receipts and refunds.

THE MODEL

10% processing + \$0.50 per transaction

Customer pays base price plus the processing fee. Stripe's take is pulled from the fee. Whatever remains is split 50 / 50 between Been Handled and you. Your original sale amount flows to you in full — the split only touches the fee. No monthly minimums during pilot.

Ready to talk pilot pricing?

partnership@beenhandled.com · beenhandled.com

Tiered enterprise pricing on request.

Practically free. The fee pays for itself.

Pilot subscription for premium partners — offset by your 50/50 share of the processing fee.

MONTHLY · PER LOCATION

\$99

per location / month

Best for multi-location rollouts.

- Unlimited Beens & group links
- Real-time roster + nudge tools
- Stripe Connect payouts
- 50/50 processing-fee share
- Priority partner support

ANNUAL · PER STORE

\$1,000

per store / year · save 16%

Best for single-store premium brands.

- Everything in Monthly
- One invoice, one renewal
- Legacy-system ID on every Been
- Dedicated onboarding call
- Client registry + CRM export

WHY IT'S PRACTICALLY FREE

**You keep half of every processing fee.
That share offsets your subscription.**

Customer pays 10% + \$0.50. Stripe is paid out of that fee. Whatever remains splits 50/50 with you.
